

Chicago Shell Club

Announcement

Meeting

Date: Sunday, September 19, 2010

Time: 1:00 p.m.

Place: Helix Camera and Video
310 South Racine, Chicago, IL

(Park on the street, or in the lot on Jackson)

Topic: **Studying Molluscan Diversity in the Center of the Center
of Marine Biodiversity.**

Speaker: **Dr. Terrence Gosliner**
Department of Invertebrate Zoology,
California Academy of Sciences

About the speaker: Dr. Terrence Gosliner received an A.B. degree from the University of California, Berkeley in Biological Sciences. His Master's is from the University of Hawai'i in Zoology and his PhD is from the University of New Hampshire. He first taught Zoology at the University of New Hampshire and then moved to the California Academy of Sciences in 1982, where he is now a Senior Curator. As Provost of the Academy, he was responsible for the integration of research, education, exhibits and the aquarium functions. His research focuses on the evolution of nudibranchs and other sea slugs. Since 1992, he has focused his research on the nudibranch fauna of the reefs of the Philippines, documenting the most diverse marine ecosystems of the world. He was instrumental in developing the Philippine Coral Reef Exhibit at the Academy and has worked actively to strengthen ties with Bay Area Filipino communities. He also has extensive experience in building collaborations to support sustainable management and conservation of the rich reefs of the Philippines.

Special note: Join us for dinner after the meeting!
